

10th Interdisciplinary Research Conference on Injectable Biomaterials

Toulouse, France, March 13 & 14, 2000.

Final program

Monday

- 8.30 Registration
- 9.00 Wellcome
- 9.15 Prs.Chiron & Mazières « Core decompression and rh BMP2 »
- 10.15 C.Schwartz « Repair of distal radius fractures with injectable calcium phosphate bone cement »
- 10.45 Coffe break
- 11.0 P.Layrolle « Biomimetic calcium phosphate coatings and their biological performances »
- 11.30 A.Ratier « Behaviour of an injectable calcium phosphate bone cement with added tetracycline »
- 12.0 A.Ravaglioli « Report on the CCT meeting on drug delivery systems in Faenza »
- 12.15 Lunch break

- 13.30 J.J.Railhac « New surgical and imaging techniques »
- 14.0 A.Boueder « Osseous tissue response to a new injectable calcium phosphate cement »
- 14.30 L.Jasper « Evaluation of PMMA cements altered for use in vertebroplasty »
- 15.0 Poster session 1.
- 16.0 Visit to the Airbus airplane factory
- 20.0 Conference dinner

Tuesday

- 9.0 **M.Glimcher « Fundamental aspects of bone mineralization »**
- 10.00 F.Monchau « In vitro biodegradation of HA, TCP and calcium carbonate by human osteoclasts »
- 10.30 J.Lu « Biological reactions on the interface between bone tissue and PMMA bone cement »
- 11.0 coffee break
- 11.30 S.Seraj « Study of a hydraulic calcium phosphate cement for dental applications »
- 12.0 M.Goldberg « Osteogenic proteins and dental pulp mineralization »
- 12.30 Lunch break

- 14.0 K.Anselme « Improving hybrid materials preparation by covalent grafting of autologous adhesion proteins on HA/glass ceramics »
- 14.30 S.Gonçalves « Influence of silicone on a calcium phosphate cement »
- 15.0 I.Ricco-Lattes « Fluorocarbons used as blood substitutes and in eye surgery »
- 15.30 Poster session 2.
- 16.0 D.Mainard « New therapeutic perspectives :from problems to solutions »
- 16.30 Industry participants : open discussion.
- 17.00 Closing remarks
