GRIBOI

2019

THE 29TH INTERDISCIPLINARY RESEARCH CONFERENCE ON INJECTABLE OSTEOARTICULAR BIOMATERIALS AND BONE AUGMENTATION PROCEDURES

November 8 - 10, 2019 HONG KONG

Welcome to GRIBOI 2019, the 29th Interdisciplinary Research Conference on Injectable Osteoarticular Biomaterials and Bone Augmentation Procedures. This event will provide a “World Meets the Greater Bay Area” environment for experts from across disciplines and regions of the world to share cutting-edge insights into the future of injectable biomaterials, dentistry and orthopaedic.

Building on the success of our recent meetings, we will discuss ideas of both investigative and clinical nature relating to the use of bone substitutes and other emerging applications of injectable biomaterials in bone augmentation procedures. This year, our topics will include truly prophylactic interventions, embolic materials, drug device combinations, and image guided interventions for degenerative disease.

We look forward to sharing an informative and fun event with you this year in Hong Kong!

CO-CHAIRS

William Lu, Ph.D
The University of
Hong Kong, Hong
Kong

Haobo Pan, Ph.D
Shenzhen Institute of
Advanced Technology,
Chinese Academy of
Sciences, China

Zhuofan Chen, Ph.D
Sun Yat-sen University,
China

**Jukka P.
Matinlinna, PhD**
The University of
Hong Kong, Hong
Kong

Alexis Kelekis, MD
University of Athens,
Greece

Nikos Mattheos, DDS, PhD
The University of Hong
Kong, Hong Kong

TOPICS

- Injectable Biomaterials: Preparation and Characterization
- Injectable Biomaterials: Clinical Study
- Injectable Biomaterials: Biomechanics Study
- Bone Augmentation Procedures
- GA: Advanced Imaging Technology in Orthopaedic Application
- Osteoporotic Bone Fracture, from Research, Diagnosis, and Prevention
- Injectable Biomaterials for Dental Applications

Venue:

Cheung Kung Hai Conference Centre, G/F, William MW Mong Block, 21 Sassoon Road, Pokfulam, Hong Kong
