

A microscopic image of biological tissue, possibly a cross-section of an organ, with a purple overlay. The image shows various cellular structures and patterns, with the purple color highlighting specific areas. The overall texture is complex and organic.

EXHIBITOR OPPORTUNITY

BANFF, ALBERTA, CANADA

GRIBOI

*Uniting fundamental researchers, academic interventionalists,
and clinicians in the rapidly evolving field of biomaterials.*

Our 33rd Interdisciplinary Research Conference on Injectable Osteoarticular and Biomaterials and Augmentation Procedures

Join us April 10th-13th, 2025 at the Fairmont Banff
Springs Hotel in beautiful Banff, Alberta, Canada

*Become an instrumental partner by
sponsoring this event at info@griboi.org*

DEAR INDUSTRY FRIENDS,

On behalf of myself, Stephano Marcia, and the GRIBOI leadership team, it is my pleasure to extend an invitation to participate in and support the upcoming 2025 GRIBOI Annual Symposium, to be held from April 10th to 13th in Banff, Alberta, Canada, at the stunning Fairmont Banff Springs Hotel. Our symposium will gather the brightest minds and the latest innovations in biomaterials, image-guided interventions, and therapeutic applications, as we continue to advance the mission of GRIBOI in enhancing interventional radiology, interventional pain management and minimally invasive surgery.

For over three decades, GRIBOI has led the way in fostering collaboration and scientific advancement across the interdisciplinary fields of biomaterials and interventions. Your support has been crucial in shaping the success of our symposiums, and we value the partnerships we have built along the way. These relationships allow our members to engage directly with industry, driving progress through the sharing of insights and development of new innovations.

Our upcoming symposium will feature presentations from globally recognized experts and “key opinion leaders” in biomaterial sciences and image guided interventions. From seasoned professionals to emerging leaders, attendees will experience a robust lineup of didactic sessions, interactive workshops, and insightful discussions around the latest developments in biomaterial sciences and radiology applications.

As an industry partner, your involvement goes beyond the symposium floor. Attendee engagement will extend into our collaborative workshops, hands-on training sessions, and the popular industry roundtable discussions, where GRIBOI experts and industry representatives exchange ideas in a small group setting. These interactions foster opportunities for impactful partnerships that drive innovation and collaboration across our field.

Thank you for your continued support, and dedication in advancement of our field. We look forward to welcoming you to the 2025 GRIBOI Symposium in Banff and sharing in the scientific exchange, camaraderie, and future collaborations that make this meeting truly unique.

WARM REGARDS,
DR. STEFANO MARCIA, MD
PRESIDENT, GRIBOI

PARTNERING WITH GRIBOI

Groupe de Recherche Interdisciplinaire sur les Biomatériaux Ostéoarticulaires Injectables (GRIBOI) unites fundamental researchers, academic interventionalists, and clinicians in the rapidly evolving field of biomaterials.

Emerging from the need for a dedicated international platform, GRIBOI sets the stage for professionals to engage and share expertise on cutting-edge applications. In an industry marked by rapid growth and technological advancements, our initiatives are designed to be dynamic and provide experts with unparalleled opportunities for networking, learning, and collaboration.

MISSION

To improve the design, synthesis, characterization, and clinical application of these materials to enhance treatments for bone and joint diseases.

VISION

A future where innovative biomaterials lead to more effective and accessible treatments for bone and joint conditions.

RESEARCH

By developing advanced experimental models, improving characterization methods for both lab and clinical testing, and promoting the dissemination of scientific knowledge.

PARTNERSHIPS

Working closely with institutional and private partners across sectors, driving advancements in the latest innovations applied in clinical practice.

EXHIBITOR OPPORTUNITIES

All tiers in USD	BRONZE \$10,000	SILVER \$15,000	GOLD \$20,000	PLATINUM \$25,000
Exhibitor Booth and Conference Passport Feature	✓	✓	✓	✓
Complimentary Registrations	✓ (1)	✓ (2)	✓ (3)	✓ (5)
Brand Recognition During Opening Remarks	✓	✓	✓	✓
Print and Digital Promotion ¹	✓	✓	✓	✓
Refreshment Break Video (1 for 10 minutes)	—	✓	✓	✓
Brand Recognition Closing Remarks	—	—	✓	✓
Breakfast Presentation (1 for 20 minutes)	—	—	✓	✓
Brand Recognition Throughout Event	—	—	—	✓
Lunch Presentation (1 for 30 minutes)	—	—	—	✓
1 Dinner Symposium ²	—	—	—	✓

¹ Sponsorships includes year round website spotlight and printed assets during the conference.

² GRIBOI will provide a meeting space and established AV. The sponsoring organization will coordinate added AV, reconcile food/beverage costs, and additional expenses. Any costs association with presenters/presentations noted above need to be reconciled by the Exhibitor.

GRIBOI will follow all of the rules and guidelines set forth by the National Standards and CMA Guidelines for Physician Interaction with Industry and CMA Code of Ethics. GRIBOI offers and limits break-time presentations on a first-come, first-served basis with total opportunities comprised of breakfast (2), refreshment (4), lunch (2), dinner (1).
